PROFESSIONAL SUMMARY

Mid-Senior Software Developer with 5+ years of experience in back-end and front-end, specialized in Node.js, NestJS, Java (Spring Boot), ReactJs, NextJs, and Angular. Strong expertise in systems architecture (DDD, Clean Architecture, SOLID), RESTful and GraphQL API integration, technical documentation (Swagger/OpenAPI), unit and integration testing (Jest, JUnit), relational and non-relational databases, and hands-on experience with Docker, Kubernetes, and cloud environments (AWS and Azure). Experienced in agile teams with national and international exposure.

PROFESSIONAL EXPERIENCE

Senior Software Engineer @ Claro Brasil Mar/2026 – Present
Florianópolis, SC, Brazil

Goals:

Development of high-performance software solutions for one of the largest telecommunications groups in Latin America.

Challenges:

Working as Senior Software Engineer building back-end solutions with NestJS, Node.js, and Java Spring Boot, following clean architecture and DDD principles to deliver scalable solutions.

Node.js NestJS TypeScript Java Spring Boot PostgreSQL Docker AWS

Full Stack Developer @ Portobello Grupo Sep/2025 – Mar/2026
Florianópolis, SC, Brazil

Goals:

Back-end development for the launch of the PlayObras application, ETL maintenance, and contribution to the internal Concierge platform.

Challenges:

PlayObras back-end launched within 1 month with Salesforce integration and PostgreSQL database. Legacy ETL maintenance with complex architecture. Endpoint adjustments and new pages added to the Concierge front-end platform using ReactJs and Bootstrap.

Java Quarkus Salesforce MongoDB PostgreSQL React.js Bootstrap

Software Developer @ WEG Aug/2024 – Sep/2025
Blumenau, SC, Brazil

Goals:

Development of a web system for monitoring and analyzing field work (commissioning tests for transformers).

Challenges:

Web system with Next.js, Ant Design, ContextAPI, and RestAPI. Backend in Node.js with TypeScript, TypeORM, and near-DDD architecture. Routines with node-cron, messages via RabbitMQ, Redis, and PostgreSQL database on Docker and Kubernetes.

Next.js Node.js TypeScript TypeORM Java 17 Spring Boot RabbitMQ Redis PostgreSQL Docker Kubernetes

Front End Web Developer @ Fundação ABC Jul/2023 – Jul/2024
Paraná, Brazil

Goals:

Development of a website that receives data via RestAPI using React.

Challenges:

React, axios, ContextAPI, Redux (Ducks), GraphQL, Material UI. Task management in Redmine and versioning with GitLab. WhatsApp API setup on the Meta platform and automated WhatsApp service route creation.

React.js Redux GraphQL Material UI Node.js PostgreSQL RabbitMQ Docker WhatsApp API

Systems Analyst @ AXOR Consultoria e Gestão Jan/2023 – Jul/2023
Rio de Janeiro, Brazil

Goals:

Creation of Power BI dashboards, database organization, and back-end development.

Challenges:

Database migration support, Python back-end development, SQL queries (SQL Server and Oracle), Power BI and React dashboards for BI, task automation bots with Python.

Python Node.js React.js Power BI SQL Server Oracle Docker

São Paulo, Brazil

Goals:

Development of a website for citrus fruit farmers that receives data via RestAPI using React.

Challenges:

React, axios, ContextAPI, Redux, React-query, Material UI. Task tracking using GitHub issue labels.

React.js Redux Material UI Node.js MongoDB Express.js

Trainee @ Johannes Gutenberg-Universität Mainz

Aug/2018 – Mar/2019

Mainz, Germany

Data generation and monitoring in a scientific research environment at the Physics Institute (Max Planck Institute). Configuration of experimental data analysis and processing systems.

Python ImageJ Data Analysis

TECHNICAL SKILLS

HTML CSS JavaScript TypeScript React.js Next.js Angular Redux GraphQL Material UI

Tailwind CSS Node.js NestJS Express.js Java 17 Spring Boot Quarkus Python PostgreSQL MySQL

MongoDB Redis RabbitMQ TypeORM Docker Kubernetes AWS Azure Swagger / OpenAPI

Unit & Integration Testing Jest JUnit SOLID / DDD / Clean Code Design Patterns Power BI Git GitHub

GitLab CI/CD

EDUCATION**PUC Minas** · Nov/2023

Graduate Degree (Lato Sensu) – Software Engineering

Trybe · Jan/2021 – Jan/2022

Higher Technology Course – Computer Science (Full Stack Development)

Pontifícia Universidade Católica do Rio de Janeiro (PUC-Rio) · 2007 – 2014

Bachelor's Degree – Materials and Metallurgical Engineering
